

1-Day Church Security Planning for Leadership Personnel

Monroe, LA – October 19, 2023

Time: 8:00 am to 5:00 pm

This course is intended for those in church leadership to be provided with all of the tools needed to start a security ministry from nothing or to formalize and professionalize a security ministry already in place. This course will cover the importance of constructing a written plan and give step by step instructions how to do so. Putting a plan for your security ministry in writing is very important because actions in a crisis will be judged under the assumption that your team reacted subjectively.

Register Online at strategosintl.com

A written plan allows your ministry to counter these assumptions by stating that your team DID NOT react subjectively but instead reacted objectively based on a written plan, policies and procedures that had been trained to all staff and volunteers involved. An overview of constructing and outlining a “Mission Statement”, “Biblical Authority”, “Goals & Objectives”, “Risk Assessment”, “Planning Checklists”, “Code of Conduct” and “Policies & Procedures” for your written plan are covered.

Who should attend?

- Pastoral Leadership
- Business Administrators
- Facility managers
- Security Directors
- Children’s Directors
- Security Team Members
- Staff Leadership
- Elders

All attendees receive a 75+page workbook, risk assessment worksheet, physical security checklists & template sections for the written plan.
